JEALOUSY AND MURDER.

FURTURE DETAILS OF THE MURDER OF SAMUEL

SCHENCK, AT ROSLYN, L. L. ored man who was brutally assaulted with a heavy hatchet on Thursday afternoon of last week at Roslyn, L. I., is named Samuel Schonck, "Robinson" ing only an alias. The report of his death proves to have been premature and the result of a mistake as to his actual condition. His case is regarded as one of the most extraordinary that have ever puzzled the doctors, as it is seldom that so much vitality is exhibited nder such circumstances. The man's skull is mashed so that his brain oozes from the wound, as well as from his ear, and his right side is entirely paralyzed. Ever and his medical attendents, Drs. Bogart and Fields, are at a loss to know what keeps him alive. His recovery, nowever, is impossible, as death must soon take place from mortification. An examination of the principal wound reveals the fact that the skull is one-eighth of

from mortification. An examination of the principal wound reveals the fact that the skull is one-eighth of an inch in thickness. He is lying in the house of his assailant—William Fowler, alias Bullwagon—near the landing of Roslyn harbor, and is attended by Fowler's wife and one of the neighbors.

As near as can be ascertained from persons who were witnesses of the murderous encounter, it grew out of lealousy on the part of both Fowler and Schenck, on account of Fowler's wife. It appears that Schenck, who has a wife and daughter residing at Oyster Bay, has for several years past lived at Roslyn a portion of the time with Fowler, and has furnished a large proportion of the articles used in the nouse, and that at one time when ill he was nursed by Fowler's wife. On Wednesday of last week both the men were engaged by it. Hecks, the proprietor of a coal and limiter yard at Boslyn, to unload coal, for which they were paid an Thursday morning, each receiving \$8. Mra. Fowler's birthday fell upon Thursday, and for her kindless to him, after paying some bills for groceries and meat, Schenck purchased a dress for her and presented it to her. On that day both men remanded at home, where they were joined by Alexander Jackson, and the three amused themselves until noon by playing cards, but druking very little. At noon Mra. Fowler announced that dinner was ready; Jackson was invited to a seat at the table, and Schenck declined to eat, saying that he did not wish for any dinner. At this Fowler became angry; hot words passed between the two, and they clinched, Schenck throwing Fowler heavily to the floor. They clinched the second time, and Jackson refusing to interfere, Mrs. Fowler heavily to the floor. They clinched the second time, and Jackson refusing to interfere, Mrs. Fowler wont for a neighbor, named Thomas Valentine. Using to the house Valentine put Schenck out of doors and locked the door, keeping Fowler inside. Fowler, however, managed to get out of one of the windows, and running around the house again mot Schenck, w Both the men have hitherto borne good reputations

Both the men have hitherto borne good reputations, especially Schenck, who has been regarded as a quiet and inoffensive man Schenck is about forty-five years old. Fowler is about thirty years old, and could no doubt have handled Schenck readily. He is an idle and dissolute character and generally teared by the men in the neighborhood, his strength being extraordinary. AN INFERNAL MACHINE.

A CLERK DISCOVERS IT BEFORE ITS WORK IS ACCOMPLISHED-AN INVESTIGATION TO BE MADE TO-DAY.

Shortly after seven o'clock last night, as one of the employes of the firm of Nicholas & Coon, dealers and manufacturers of artificial flowers, at No. Broadway, was about to close up the for the night, he observed volumes of smoke issuing from beneath the staircase. Proceeding to investigate the cause, he found under the stairs, on the top of several cases of straw goods, a box made of thin pine boards, wrapped in own paper, from which the smoke proceede Immediately took down the box and tore off the cover. On the inside was a smaller, round cardboard box, the cover of which was perforated with phoies. He saw the light of a candle shaining through and immediately extinguished it. The young man who discovered the smoke immediately wished to inform the police, but another clerk, who was in his company, seemed reluctant. His objections being overruled they informed officer Maher, of the Fourteenth precinct, who took the box to the station house. The box was examined very carefully on the outside by Captain Allaire and Inspector Dilks, leaving the more perious task of examining the inside to the Fire Marsha to-day. The box was fourteen inches high by ten long and eight broad. There were a lot of shavings between the inner box ran the outer one, mixed with powder. Into the top of the inner box ran a large fuse connecting with the powder and shavings. Where the fuse ended was not investigated by the police, but it is supposed that it would have taken several bours to burn. The two tlerks were taken to the station house and closely examined. Fire Marshai Sheldon was notlified of the lacts and will make a thorough investigation to-day. immediately took down the box and tore off the cover.

rest of Henry A. Solomon, who formerly held the position of receiving clerk in the complainant's office, The charge was embezzlement, the amount specified in the complaint being \$131. Another warrant was obtained from Justice Walsh, on complaint of the present Incumbent of the office of Register of Arrears, Mr. Daniel D. Whitney, charging Solomon with embezzling the sum of \$117. The formor warrant, which was placed in the hands of Delective Shaughnessey, was executed at seven o'clock last evening, when the accused clerk was taken into custody at his residence, No. 387 Myrtle avenue, upon his return from New York, where he has been employed for several months past. It appears that the sileged offences were committed chiefly under the administration of the former Registrar, and it is impossible as yet to form any estimate of the aggregate amount taken by Solomon. As receiving clerk, he took the money from the taxpayers whose taxes were in arrears, and, entering the amount on a "tickler," passed it down to two other clerks, who also made entries from the bill, and then, the clerk at the lower end of the counter handed it our receipted to the taxpayer. It appears, however, that the accused, in the hurry of business and under the impulse of temptation, signed certain bills, "William M. Little, per Solomon," and, failing to make any entry of the amount on the "tickler," passed the receipted bills out at his window to the taxpayer. Of course there was no record on any of the office books of the amounts thus received. About a year ago Mr. Little, who is a republican, was superseded by Mr. Whitney, democrat, and a change took place in the personnel of the subordinates in the office. Solomon was discharged nine days after Mr. Whitney's appointment. I we weeks ago a gentleman, whose property was advertised for saile for arrears of taxes, called upon Register Whitney and stated that he had paid the taxes on the property as and exhibited a receipt for the money paid, with Solomon's name attached thereto. Two or three others called and it was decided to have Solomon arreated.

The prisoner, who is very respectably connected, was one of the most prominent ushers at the Brooklyn Rink during the Moody and Sankey revival last winter. He received the tickets from the sinners who entered by the main door, and his affable bearing and smile, "childlike and bland," won general commendation. Last night the doorman in the Fourth precinct sation house turned his key in the call door is which the poor follow was contined to await examination. The punishment upon conviction of the crime alleged is from one year to five ye his return from New York where he has been em ployed for several months past. It appears that the

A METHODICAL LUNATIC.

Michael Croker, of No. 835 Eleventh avenue, went down town yesterday, and, representing himself as the foreman of a large gang of laborers, ordered twenty-five carts to be sent to the foot of Twenty-sixth street for the purpose of hauling sand from a barge to Bellevue Hospital. He also ordered a large quantity of wood to be sent to the same place. The wood and the carts were sent as directed, when it was discovered by those most interested that Michael was not only acting without authority but that he was also insane. He was consigned to the cells at Bellevue. He is thirty-six years old and a native of Ireland.

GREENBACK DEMOCRATS.

The Greenback Democratic Association of the Twentyest Assembly District met last evening at No. 1,915 Third avenue. The following were elected delegates to the State Convention to be held in this city on June I:— Marcus Hanlon, Wm. Lalor and Dr. Chas. J. Smith; alternates, T. E. Tomlinson, Elias J. Patterson and Ihoa B. McKellar. Resolutions were adopted to the effect that the Convention indersed the platform of 1868, and the resolutions of the Convention at Syra-ture. March 15, 1876; that Samuel J. Triden, the ac-bnowledged head of the faction which has assumed to lead the democratic party, has not been actuated for the public good, but for the furtherance of his personal ambition; that under his dictation the New York de-mocracy has abjured the great principles upon which the people were led to victory by Andrew Jackson, and broken all connection between the great States of the West and South, and that therefore the delegates are instructed to oppose all Tilden sympathizers, and to stand for the people against monopolies.

UNION LEAGUE THEATRE-FRENCH

The admirable company of French artists who have entered on a brief engagement at the Union League Theatre, and who since their arrival in this country have so successfully interpreted those bright and charming productions, the English translations of which appear in most instances so flimsy and unsatisfactory, gave a really brilliant performance last night. The pretty little theatre was crowded by a fashionable gathering that most carnestly appreciated the graceful and thoroughly artistic efforts of those to whom the task was assigned of presenting the exceedingly anusing and very clever comedy in three acts, by E. Scribe, "Batsilie des Dames," and Malefille's happy and well conceived little contribution to the French stage entitled, "Les Deux Veuves." The former was produced some ten or twelve years ago, and its revival last evening was hailed with pleasure. The situations are irresistibly homorous, and with such excellent artists as Mme. Lormianie as La Comtesse, Mme. Tholer as Loonie and M. Mexières as De Grignon the charming little piece passed off amid an atmosphere of heartful pleasure. Both M. Veinat, as Henri de Flavignenil, and M. Richez, as De Montrichard, also deserve commendation for the creditable manner in which their respective parts were sustained. "Les Deux Veuves" was scarcely a whit less attractive, and as the bright little comesty procressed the faces of the assemblage fairly beanned with delight. Mme. Cisrence, as in every wold she undertakes, was at home as Caroline, and acted the part with her usual ability, being well assisted by Mme. Tholer, as Laure. M. Dalbert again proved himself an accomplished artist in the rôle of Edmond, and M. Richez, as Labarague, contributed in a great measure to the success of the representation. It was, altogether, an excellent outertainment. "Monsieur Alphonse" is announced for this evening. task was assigned of presenting the exceedingly amus-

MUSICAL AND DRAMATIC NOTES.

Mr. C. D. Hess, Manager of the Kellogg English Opera Company, will commence a short season at Booth's Theatre on Monday night, with the entire troupe in Meyerbeer's "Star of the North." Miss Kellogg's im personation of Catherine has been widely praised as one of her best operatic efforts. The accessories to the opera are very sumptuous, comprising all the pomp and circumstance of war as known when Peter wa

Contenn'al Exposition on Wednesday next will be the musical programme arranged by Theodore Thomas. The works are all original as far as designed for the great occasion.

A HUNT AFTER OFFENBACH. The tantalizing Franco-German composer, whose

merry strains have set half the world crazy, was the cause of a very enjoyable excursion down the Bay vesterday on the stanch little Blackbird. One hundred invited guests stepped on board at Pier 48, North River, about eleven o'clock in the forenoon Messrs, Sheridan Shook and Maurice Grau gave the signal, and the boat started for the Quarantine station on Staten Island. A band of music tooted forth inspiring melodies, Offenbach, Strauss and Downing commingled, and the boat hands ran up the flags o America, France and Germany, until there was quite a respectable show of bunting on the Blackbird. After a long stay at Staten Island, during which the steamships Seythia and Lessing passed up to their respective docks, there were grave doubts expressed as to the probability of the French steamer arriving before morning. One enterprising individual suggested pool selling to decide the question; another insisted upon going out to meet the steamship, regardless of time of distance. While the Lessing lay at anchor for a short time awaiting the arrival of the Health Officer, the Blackbird steamed around her, the band playing them-Biackbird steamed around her, the badd playing themsented they informed Officer Mahor, of the Fourteenth precinct, who took the box to the station house. DEFALCATION.

PRAUDS IN THE BROOKLYN OFFICE OF ARREADS. OF TAXES—A MOODY AND SANKEY USHER THE ALLEGED CULPRIT.

A defalcation was discovered yesterday in the office of Register of Arrears, of Brooklyn, which caused great excitement in official circles. Later in the day a warrant was issued on complaint of ex-Register of Arrears, William Mayo Little, by Justice Riely, for the arrest of Henry A. Solomon, who formerly held the position of receiving clerk in the complainant's office. selves almost hoarse in "Die Wacht am Rhein" and danced around the Blackbird. At length the order was given to return to the city, and the party sorrowfully gave up hopes of meeting Offenbach on that day. The Canada was sighted off Sandy Hook at two 'clock this morning, and will be at her dock before the excursionists have slept off the fatigues of yesterday's

ALLEGED FRAUDS IN BROOKLYN.

Yesterday the special committee of the Brooklyn Common Council appointed to investigate the alleged fraud-ulent transactions in the issuing of certificates to contractors for grading and paving Sumter street and Reid. Buffalo, Utica and Seventh avenues, held their first session in the City Hall. Alderman Arnott presided. Ex-Street Commissioner Robert Furey, under whose admin-istration the alleged irregularities occurred, was present. John Connelly testified that his father was the conhis name, and the work was done in the summer and fall of 1870; it lasted until 1871, when Mr. Furey orhis name, and the work was done in the summer and fall of 1870; it lasted until 1871, when Mr. Furey or dered him to stop and to pave two blocks on Lafayette avenue; the paving was cone from DeKalb avenue to Hancock street, and the grading was done except three blocks when the interruption took place; Mr. Butts was the Surveyor, and he gave the certificates as to the work performed. The witness knew of no understanding between the contractor and the engineer to give a certificate for more work than was done. Ex. Alderman Francis Weeks testified that he knew that Mr. Connelly was at work on Reid avenue about a year, and that part of the contract was subject to William Connelly; the latter did his work very poorly; Mr. Furey ordered the work to be done over again.

A. C. De Meritt, Assistant Engineer of the City Works Department, testified that in 1873 Reid avenue was not graded nor paved; to told Mr. Fitch to proceed with the work, and when it was completed the contractor was paid according to the certificates which the witness gave him; it was a question whether Mr. Fitch should be paid only lor a portion of the work or for the whole avenue from Fulton to the Kalb avenue, or \$15,000 more than he was entitled to; the lepartment of the Works and the Corporation Connect decided that he should be paid for the whole work.

Mr. Furey explained to the committee that the first contractor, Mr. Connelly, had done a great portion of his work in a proper manner, for which he had been paid \$27,000. Mr. De Meritt testified further that Surveyor Butts gave Mr. Fitch an estimate for about \$8,000; Mr. Kirth, another surveyor, gave the contractor a final estimate for about \$8,000; Mr. Kirth, another surveyor, gave the contractor a final estimate for about \$8,000; Mr. Kirth, another sor \$2,300, another for \$8,400, another for \$8,400, another for \$8,500, another for \$8,500, another for \$8,400, another for \$8,500, another for \$8,400, another for \$8,500, another for \$8,400, another for \$8,500, another for \$8,500, another for \$8,500,

for \$4,000; \$17,800 was Connelly's contract price; he received \$25,100.

Mr. Furey testified that Connelly's work was done so poorly that two blocks had to be repaired, and upon witness' composint the Common Council gave the new contract to Fuch; witness refused to certify Mr. Fitch's claims for more than \$7,000; the surveyor must have conspired with the contractor to give Mr. Councily certificates for more work than he had performed; the Comptroller, Mr. Johnson, should have retained the thirty per cent required by law for the faithful performance of the work; the \$9,000 which was unlawfully paid to Connelly the witness had refused to certify to; the sums paid to Fitch were by the City Works after the expiration of the witness' term of office.

CANAL BOAT SUNK.

The canal boat William F. Burden, heavily laden with cost, sank at an early hour yesterday after-noon at her moorings, the bulkhead between piers 6 and 7 East River. Great excitement prevailed in the vicinity owing to the supposition that the

The boat filled and sank so rapidly that men working on boats in the vicinity had no time to reach the cabin her to the wharf. However, it was learned later there were no occupants on board, as the statement of several canalmen lying alongside proved that the captain, with his family, had gone on a visit to Port Jefferson.

The boat was a new one, belonging to the Northern line. The value of boat and cargo could not be ascertained, owing to the absence of the captain and agent.

**-NOTICE TO CAPTAINS OF VESSELS IN THE COASTING AND FOREIGN TRADE—Captains or officers of vessels engaged in the coasting or foreign trade, observing the displacement or removal of sea buoys, are requested to communicate the fact to the Harath, so that it may be brought publicly to the attention of the proper authorities. A letter addressed "to the editor of the Harath, New York city," addressed "to the editor of the HERALD, New York city," giving as accurately as possible the number and position of displaced buoys or the cause of their removal, will suffice in all cases observed along the Atlantic and Pacific coasts of the American Continent. When they are observed on the coast of European countries or in the Mediterranean it is requested that information be sent either by telegraph or letter to the London office of the New York Herald, 46 Fleet street, London, or to the Paris office, 61 Avenue de l'Opera, Paris. Where the telegraph is used despatches may be addressed "Bennett, 46 Fleet street, London," or "Bennett, 61 Avenue de l'Opera, Paris." Where cases of displacement are observed in the waters of countries beyond displacement are observed in the waters of countries beyond the reach of the telegraph, as in Asia or Africa, captains may communicate with us upon reaching the first convenient port. This information will be cabled free of charge to the Herald and published.

HERALD has adopted a distinguishing Coston night signal for use on board the HERALD steam yacht, showing while burning the colors red, green, red, changing from one to the other in succession, and can be seen several miles distant. Captains of vessels, upon recing this signal, will oblige us by preparing any marine news they may have for the Ship News Department of the HERALD.
